

# QUICK INSTALL GUIDE

DWA-140

VERSION 2.1

**D-Link**<sup>®</sup>

**WIRELESS**

---

## Package Contents

- DWA-140 RangeBooster N® USB Adapter
- CD-ROM (contains software, drivers, and manual)
- Cradle

*If any of the above items are missing, please contact your reseller.*

## System Requirements

- A computer or laptop with an available USB 2.0 port
- Windows® XP and Vista®
- 300MHz processor and at least 64MB of memory
- Properly installed and working USB Controller

## Before You Begin

Before installing your new D-Link wireless adapter, please verify the following:

- Remove any previous installations of wireless adapters
- Disable any built-in wireless adapters
- Verify the settings such as the SSID and security settings of the network(s) you want to connect to

If you've installed a different manufacturer's adapter or a different model D-Link adapter, make sure the software is uninstalled before installing the new software. Some utilities may cause a conflict with the new software. If you plan to use multiple adapters at different times, make sure the utilities are not set to load when your computer boots up. Windows® XP/Vista® users may use the built-in wireless utility for all adapters.

---

# Software Installation

**Warning:** Do NOT install the DWA-140 USB Adapter into your computer before installing the driver software from the D-Link CD.

## Step 1:

Turn on the computer and insert the D-Link DWA-140 Driver CD in the CD-ROM drive. If the CD Autorun function does not automatically start on your computer, go to **Start > Run**. In the run box type “**D:\DWA140.exe**” (where **D:** represents the drive letter of your CD-ROM drive).

## Step 2:

When the autorun screen appears, click **Install Drivers** and follow the on-screen instructions to install and configure your wireless adapter.

## Step 3:

After installation, the D-Link DWA-140 uses the Wireless Connection Manager as the management software. The manager provides the user an easy interface to change any settings related to the wireless adapter. Clicking on the Wireless Connection Manager icon on the desktop will start the Configuration.
